**An Empowering Workshop  
for Your Great Financial Good**

Presented by Rev. Barbara Leger

- Are you tired of the constant barrage about bad news?
- Does fear and worry keep you awake at night?
- **Are you ready to experience the abundance** you believe is yours but still is elusive?

This practical workshop gives inspiration, information and hands on application of principles and spiritual techniques to focus you where you want your life to be.

Based on the principles of Unity and Abundance, and then using the practices of visualization, intention, affirmative prayer and meditation, we learn to reduce the inner dialogue and enhance the ability to make conscious choices for a prosperous life. Keeping our minds aligned with the Life principle shifts us from financial doubt and worry to financial confidence and certainty.

Included are some basic financial record handouts for creating more order while simultaneously deepening our consciousness of the infinite good that is our birthright. *Please join us for a powerful experience of financial certainty; it is never too late to begin again.*
